A More Formal Task Framework

A **task** comprises of an *action* and a *target*.

Actions

1. Analyze
    a. Consume
        i. discover
        ii. present
        iii. enjoy
    b. Produce
        i. annotate
        ii. record
        iii. derive
2. Search
3. Query
    a. Identify
    b. Compare
    c. Summarize

Targets

1. All data
    a. Trends
    b. Outliers
    c. Features / Patterns
2. Attributes
    a. One
        i. distribution
        ii. extremes
    b. Many
        i. dependency
        ii. correlation
        iii. similarity
3. Network data
    a. Topology
    b. Paths
4. Spatial data
    a. Shape
